NopeTrap Family Plan

Grandparent & Voice-Clone Scams — Don't Get Played. Print it. Fill it in. Put it on the fridge.

Warning signs

- A "family member" calls in a panic — jail, crash, hospital
- "Don't tell Mom" or "keep this secret"
- You must act **right now**
- A "lawyer," "officer," or "bail agent" takes over the call
- They want cash, gift cards, wire, crypto, or a courier pickup
- The voice sounds right — AI can copy a voice from a short clip

What to do in the moment

1. **Stop.** Real emergencies can wait 5 minutes.
2. **Ask for the safe word.** No word = no money.
3. **Hang up** and call them back on the number you already have.
4. **Call another family member** to check.
5. **Never pay** with gift cards, crypto, or cash to a courier.
6. **Tell someone** and report it — even if you didn't pay.
